

# Automatic Overdrive

Slash

My baby is high, she's in overdrive  
She's a fiend out on the floor  
She's a shot of hate  
She's a drop dead paramour

She comes around and she turns it up  
Her disease I can't ignore  
Puts it to the red  
Like I've never seen before

But it's all right  
Baby's automatic, she's in overdrive  
Rollin' all night  
Never slowing down until she sees the light

She always says she's sick and tired  
Of the pressure and the pain  
Bearing down on her  
Like a ten ton suicide

How many times I tell her  
If she keeps running at this pace  
She'll be long run out  
Before she can ever reach the light

But it's all right  
Baby's automatic, she's in overdrive  
Rollin' all night  
Never slowing down until she sees the light

She's running free  
She's running hard  
That's all she needs to reach the top

She's so obscene  
She's all I've got  
My motor queen don't ever stop  
Oh I wanna do it again

Cause it's all right  
Baby's automatic, she's in overdrive  
Rollin' all night  
Never slowing down until she sees the light

But it's all right  
Baby's automatic, she's in overdrive  
Rollin' all night  
Never slowing down until she sees the light

But it's all right  
Baby's automatic, she's in overdrive  
Rollin' all night  
Never slowing down until she sees the light

But it's all, right  
Baby's automatic, she's in overdrive  
Rollin' all, night

She ain't slowin' down till she scores tonight
