

# Avalon

Slash

Through the miles  
I cannot escape  
My fate I know will come in time  
With my back to the wind  
I cheat it again  
With a smile

Forged in blood  
Billowing up  
The truth I cannot speak  
But I made it back  
One last time

Avalon  
It's been way too long  
I can see in your eyes  
The fire is all but gone

Tales untold  
Never to know  
Unspeakable until the end  
All these mysteries  
I'll never speak of again

But my love  
I hope you believe  
Now I'm gonna give you every part of me  
I am home

Avalon  
It's been way too long  
I can see in your eyes  
The fire is all but gone

But please keep holding on  
Stay  
Tonight  
I need your love

Don't  
Say  
Goodbye  
My sweet Avalon

Avalon  
It's been way too long  
I can see in your eyes  
The fire is all but gone

My sweet Avalon  
It's been way too long

Avalon  
It's been way too long

Avalon
