

## Hard & Fast

Slash

I don't want it  
Don't need anymore  
You got me lying on the killing floor tonight

I'm on eleven  
Been up for days

It's gonna bring me to an early grave  
This life  
So I've got to go  
You won't change my mind

Cause I can't survive  
Another night in the white room  
Cause a tiny bit  
It always turns to more

And these bloodshot eyes got to say goodbye  
I had my fun  
But I can't deny  
Living hard and fast  
I'll never last beside you

My skin is crawling  
I'm a shell of myself  
You come a roaring like a bat out of hell  
That's right  
Every fucking time

Well come on lover  
Won't you give it a rest  
I'm never gonna make it out of this mess alive

So I've got to go  
Got to say goodbye

Cause I can't survive  
Another night in the white room  
Cause a tiny bit  
It always turns to more

And these bloodshot eyes got to say goodbye  
I had my fun  
But I can't deny  
Living hard and fast  
I'll never last beside you

Cause I can't survive  
Another night in the white room  
Cause a tiny bit  
It always turns to more

And these bloodshot eyes got to say goodbye  
I had my fun  
But I can't deny  
Living hard and fast  
I'll never last beside you

Living hard and fast  
I'll never last beside you
