

The Hunter

Slaves

[Verse 1]

The people are freezing
And the water is warm
And the ice caps are melting
What will happen when they're gone?
Will the experts look stupid
And invert the facts?
Will they gave you back your donations
Or keep the paper stacks?
The feeling is mutual
You don't like what we do
Because we say what we are thinking
And that shocks and frightens you
The lion in the jungle
Shows no shame, it shows no pride
It does what it needs to
To stay strong and to survive, yep

[Break]

The hunter
The hunter

[Verse 2]

You can keep it, don't want it
Keep smiling through your teeth
Oh what is it? Your justice
Cut the hands off the thief
He was starving, his children
Were crying to be fed
And now they're bawling and dying
But at least you are ahead
Just be patient, keep waiting
That's what they always say
But you're tired and you're aching
And the pain won't go away
So stand up and speak out
See that your needs are met
Oh, the odds are against you
But please place your bet, yeah

[Chorus]

You keep it
We don't want it
You keep it
We don't want it
(The hunter) You keep it
(The hunter) We don't want it
(The hunter) You keep it
(The hunter) We don't want it

[Bridge]

It's useless and worthless
We're staring at the sun
Oh it is reckless and pointless
But it's also very fun
It's useless and worthless
We're staring at the sun

Oh it is reckless and pointless
But it's also very fun
It's useless and worthless
We're staring at the sun
Oh it is reckless and pointless
But it's also very fun
It's useless and worthless
We're staring at the sun
Oh it is reckless and pointless
But it's also very fun

[Chorus]

You keep it
We don't want it
You keep it
We don't want it
(The hunter) You keep it
(The hunter) We don't want it
(The hunter) You keep it
(The hunter) We don't want it
