

Eye Opener

Slaves

I know I'm neurotic
But what's underneath
You give me a reason
To sharpen my teeth
Don't talk with your body
Cause we barely speak
It's four in the morning
So why won't you let me be

Now I realize
We've fallen out of touch
Can't look you in the eyes
Because you sewed mine shut
You think I'm paranoid
But I don't give a fuck
I'm watching you destroy
The only thing I trust

They say true love's blind
They tell me wait for a sign
It's time my head takes over
Last night was an eye opener
They say true love's blind
They tell me wait for a sign
It's time my head takes over
Last night was an eye opener

I must've died and went to heaven
In the moment that I saw your face
Cause I know nobody living
Would be strong enough to take my place

Now I realize
We've fallen out of touch
Can't look you in the eyes
Because you sewed mine shut
You think I'm paranoid
But I don't give a fuck
I'm watching you destroy
The only thing I trust

They say true love's blind
They tell me wait for a sign
It's time my head takes over
Last night was an eye opener
They say true love's blind
They tell me wait for a sign
It's time my head takes over
Last night was an eye opener

I know I'm neurotic
But what's underneath
You give me a reason
To sharpen my teeth
Don't talk with your body
Cause we barely speak
It's four in the morning

So why won't you let me be

They say true love's blind
They tell me wait for a sign
It's time my head takes over
Last night was an eye opener
They say true love's blind
They tell me wait for a sign
It's time my head takes over
Last night was an eye opener
