

Like I Do

Slaves

Keep my past so close that I forgot it's gone
Made a home for everything that I've done wrong
Traded love for feeling like I don't belong
It's been killing me, killing me, killing me
And it's holding on

I don't let go
Cause I don't know
Who I'd be without this pain
The thought of healing
Is unappealing
To the voice inside my brain
I've been broken
Cut wide open
But I won't take that from you
No one fucks with me

No one fucks with me like I do
No one fucks with me like I do
And after everything I've been through
No one fucks with me like I do

We both know there's no easy way out of this
Even sticks and stones
Won't kill a masochist
I stick my own knife in me
Just to add a twist
And throw another low blow in the mix

No one fucks with me like I do
No one fucks with me like I do
And after everything I've been through
No one fucks with me like I do

You'll never bring me down
I'd rather drown myself
So go and waste your time
Fucking with someone else
Hell, I've been crucified
I did it without help
So go and waste your time
Fucking with someone else

I don't let go
Cause I don't know
Who I'd be without this pain
The thought of healing
Is unappealing
To the voice inside my brain
I've been broken
Cut wide open
But I won't take that from you
No one fucks with me

No one fucks with me like I do
No one fucks with me like I do
And after everything I've been through

No one fucks with me like I do

You'll never bring me down
I'd rather drown myself
So go and waste your time
Fucking with someone else
Hell, I've been crucified
I did it without help
So go and waste your time
Fucking with someone else
