

Medicate Me

Slaves

Dressed in all black like the reaper
Way she go down I could keep her
Digging this grave little deeper
When I resurface wanna see her
No we don't live in the past
Live in the moment you know it don't last
Trading the trauma to get me a plaque

When it's over we just leave the lights low
Roll back, eyes closed
It's suicidal
Coming off your chemical

Make it alright
For the last time
Take it slow I'm
Numb from the pain
Don't mess around
Come and save me
Medicate me
Tell me baby
Am I chasing a high
That I won't live down?

Am I chasing a high that I won't live down?
Am I chasing a high that I won't live down?
Come and save me
Medicate me
Tell me baby
Am I chasing a high
That I won't live down?

Traded my soul for a single night 'til I feel you coming
Killing myself for your love's not right and now I can't feel nothing
No we don't live in the past
Live in the moment you know it don't last
Craving the second that I get you back

And when it's over we just leave the lights low
Roll back, eyes closed
It's suicidal
Coming off your chemical

Make it alright
For the last time
Take it slow I'm
Numb from the pain
Don't mess around
Come and save me
Medicate me
Tell me baby
Am I chasing a high
That I won't live down?

I know you're leaving
And I tell myself I'm over your love
Hard to believe it

When I taste you on the tip of my tongue
Come and save me
Medicate me
Tell me baby
Am I chasing a high
That I won't live down?

Am I chasing a high that I won't live down?
Dressing all black like the reaper
Way she go down I could keep her
Digging this grave little deeper
Yeah
