

Over Me

Slaves

Thought that you'd grow old with me
Now you're over me
Pretty faces overseas
Keep me company
Faded from the memory
Of my evergreen
Thought that you'd grow old with me
Now you're over me

You might've messed me up
But I made it out alive
I got nowhere to go and I'm comatose
I never called your bluff
Could've been suicide
(Look atcha!)
No I don't wanna, don't wanna chase your ghost

I believe in dedication
I believe that I'm impatient
But I'm really leaving this time

Thought that you'd grow old with me
Now you're over me
Pretty faces overseas
Keep me company
Faded from the memory
Of my evergreen
Thought that you'd grow old with me
Now you're over me

I'm waking up wasted
When we're world's away
Chase the train into Scotland
Sippin' Lucozade
Knew that you would get high
When you felt low
Heard you moved on
With somebody I know
Never thought love could leave with no dignity
Ooh

Thought that you'd grow old with me
Now you're over me
Pretty faces overseas
Keep me company
Faded from the memory
Of my evergreen
Thought that you'd grow old with me
Now you're over me

It's killing me slow
Ain't no living down a ghost
Got me thinking
I'll die alone
It's killing me slow
Ain't no living down a ghost
Got me thinking

I'll die alone

Pretty faces

Keep me-

They keep me company

But I thought that you'd grow old with me

I faded from the memory of my evergreen

Now you're over me

Now you're over me
