

## Share the Sunshine Young Blood, Pt. 2

Slaves

Okay well I just keep expecting  
It's all a phase  
She said she needed space okay well I just need a change  
For somewhere I could let lick my wounds  
Sew my heart right back together  
Someone hand me a stitch or two  
Double cross me and cross my mind  
Harping on this loss of mine  
I say I'm fine, but I often lie  
Man I wanna kill time, but the clock won't die  
I'm just at a loss for words  
Looking back I fell in love with who I thought you were

We should've gave up from the start  
So keep crying  
So keep crying  
(You'll get what you deserve)  
At the hands of your work  
You'll get what you deserve  
You'll get what you deserve

From the top  
We were never built to last  
Taking the high road is letting go  
So much for better or worse  
So much for better or worse  
So much for better or worse  
I fell in love with who I thought you were

You'll get what you deserve  
We should've gave up from the start  
So keep crying  
So keep crying  
(You'll get what you deserve)  
At the hands of your work  
You'll get what you deserve  
You'll get what you deserve

You made your bed  
So let it in  
So be someplace  
When there are words inside  
You made your bed  
So be someplace  
When there are words inside

You'll get what you deserve  
We should've gave up from the start  
So keep crying  
So keep crying  
(You'll get what you deserve)  
At the hands of your work  
You'll get what you deserve  
You'll get what you deserve
