

## Overt Enemy

Slayer

I breach your life  
Indoctrinate  
Police your thoughts  
Ask why I hate  
I lose control  
When I see your face  
Abusing power  
I infiltrate  
Continue lies  
Then masturbate  
I walk the line  
I'll do no time  
I hate your church  
I'll burn your state  
A bleeding heart  
A seal of fate  
There is no crime  
Within my mind

I'll sell your life and preach your death  
A wicked plan born of contempt  
Bleeding my ideology through pain

Audacious plans  
I calculate  
A new world view  
I'll re-instate  
Don't cross my path  
Or I'll see you burn  
You'll meet your end  
Find death alone  
No grave to mark  
The seeds you've sown  
You've pushed to far  
My secrets I defend

I'll sell your life and preach your death  
A wicked plan born of contempt  
Bleeding my ideology through pain

Demonize what is feared profane architect  
Skull and bones through the mind  
Barbaric thoughts of old  
Celebrate all unknown  
At last the dead await  
The die is cast for the meek  
Inherit endless dead time  
Smell the victims are near  
consume the catalyst  
Hunting masses for game  
implanting septic thoughts  
Reaping terror through words while  
armed behind your back  
Pseudo leaders betray  
enslaving all of mankind  
Cast out the Demi God  
Dethrone the demagogue

Cast out the church god  
I command your life  
And I don't care  
Let bullets rain  
From everywhere  
No suicide  
Will save you from yourself
