Roll up to the basement party
Drinking all your dad's Bacardi
Smoking up inside my white jeep with the pink seats (yeah)
You are my best-friend till the fucking world ends
All the boys love to flirt with us
In our mini skirts, drinking champagne till it hurts, oh yeah

We've been smoking all day
We walked around the city and I think we ran into your ex
G-g-g-got our matching Juicy lockets
Keep our celly in our pockets
You're my sexy little BFF
You're my BFF
You're my BFF
You're my BFF, yeah
We've been smoking all day
We walked around the city and I think we ran into your ex
Got our matching Juicy lockets
Keep our celly in our pockets
You're my sexy little BFF

New message!

Hi girl!
You know you always will be my girl
Tryna pull us into the real world
But I think we'd rather stay in Dior (for sure)
Hey sis!
You know those ugly people hate this
The way we're always hand in hand, side by side, never cared about nobody but you, and I do
Yes I do!

We've been smoking all day
