

## Clouds

Slayyyter

I always dreamed to the sound of a drum  
Little girl won the world, she's a champion  
Nice champagne on ice  
Life is paradise  
So tell me why I feel this way inside?

I'm unhappier than I've ever been  
I never thought I'd know what it's like to win  
Say what you want but I never thought I'd end up here  
Some days I feel good then I really wanna disappear  
I always got clouds over me  
I always got clouds over me

I wish they knew what goes on in my head  
Sometimes feels like I'd be better off dead  
I don't wanna think  
Pour another drink  
So I don't have to feel anything

I'm unhappier than I've ever been  
I never thought I'd know what it's like to win  
Say what you want but I never thought I'd end up here  
Some days I feel good then I really wanna disappear  
I always got clouds over me  
I always got clouds over me

Oh, ooh-woah, oh-oh, oh-oh  
(La-la-la, la, la-la-la, la)  
Oh, ooh-woah, oh-oh, oh-oh  
(La-la-la, la, la-la-la, la)
