# Devil

**Slayyyter**

They say I'm toxic, you can't handle it
Full of poison, baby, take a sip
Drag you right back down to hell with me
Go, escape while you've got your dignity

No sugar or spice, and I never play nice
But I'm known to entice stupid boys all the time
You all act the same: You get burned, I get blamed
Baby, let's play a game, watch me drive you insane

Don't take it personal
You know-oh it's just the way I roll, the way I-
Don't try to mess with me
Boy, you are not on my level
Now watch me play the devil

Call me the snake
That makes you the prey
Love to hate
You can't stay away
You've never met nobody like me before
I'll eat you up and leave your heart dead on the floor

No sugar or spice, and I never play nice
But I'm known to entice stupid boys all the time
You all act the same: You get burned, I get blamed
Baby, let's play a game, watch me drive you insane

Don't take it personal
You know-oh it's just the way I roll, the way I-
Don't try to mess with me
Boy, you are not on my level
Watch me play the devil

Yeah, ah
Yeah

Don't take it personal
You know-oh it's just the way I roll, the way I-
Don't try to mess with me
Boy, you are not on my level
Watch me play the devil
