

# Memories Of You

Slayyyter

There's one way  
To make me fall in love  
I'm sorry  
I'm never good enough

Nightclub lights my heart is bleeding  
One more drink I watch you leaving  
Signals flashing so misleading  
My mistakes I keep repeating

Criminal, what you do  
When you're all alone  
In the blue unforgivable  
But I still hold on to  
Memories of you

Memories of you  
Memories of you

Your cruel ways  
Kept me hanging on  
So sorry  
That you never wanted love

Nightclub lights my heart is bleeding  
One more drink I watch you leaving  
Signals flashing so misleading  
My mistakes I keep repeating

Criminal, what you do  
When you're all alone  
In the blue unforgivable  
But I still hold on to  
Memories of you

Memories of you  
Memories of you
