

Tear Me Open

Slayyyter

Love it when you call me angel
Are you secretly the devil, baby?
I've been feeling so unstable
Everything about you makes me crazy

Holding me in your arms
Cut me deep
Leave a scar
Kissing me in your car
I feel weak
Get me out of my mind

I get scared of the things you could do to my heart
Oh, I don't care
I'll look into your eyes as you tear me apart
Tear me open, tear me open
Tear me open, tear me open
Tear me open, tear me open
Tear me open, tear me open

I wanna hold you here forever
Tell me if you feel the same about me
I won't put on any pressure
I just want to be together

Holding me in your arms
Cut me deep
Leave a scar
Kissing me in your car
I feel weak
Get me out of my mind

I get scared of the things you could do to my heart
Oh, I don't care
I'll look into your eyes as you tear me apart
Tear me open, tear me open
Tear me open, tear me open
Tear me open, tear me open
Tear me open, tear me open

Tear me open, tear me open
Tear me open, tear me open
Tear me open, tear me open
Tear me open, tear me open
