

Why you still throwing shade?  
Sunny days in Georgia, money green, it's foreign  
I somehow made it through  
My girl's a whole damn mood  
She knows what love is  
But the scary thing  
I know she's in control  
Stability is what she wants  
(And I might get that for)

Baby, make my heart complete  
Put my soul to rest in peace  
Love is all I've got to give  
(I noticed that you want something)

Girl I don't wanna go to hell now  
You said, "I'm outtie"  
Since then, I'm broken  
Nobody wanna fix me  
You're beautiful and worthless  
My dream and my vision  
My soul and my youth  
I all-in my everything, my everything

Baby, make my heart complete  
Put my soul to rest in peace  
Love is all I've got to give  
I noticed that you want something  
(Baby, make my heart complete)  
(Put my soul to rest in peace)  
(Love is all I've got to give)  
(I noticed that you want something)
