

CARE

slchld

I care
Every time we share
Hurtful words at night
I still care about you

I care
Every time we tear
Our walls into the ground
I still care about you

I know I'm the problem
I can't help myself
My own damn emotions overflow like hell

Is this really the last time
I get to talk to you
I still care for you

You said
If things don't work as intended
I don't have to worry all alone

Oh you said
You'd be there for me
Where'd you go I need
You more than ever now

I care
Every time we tear
Our walls into the ground
I still care about you

I know I'm the problem
I can't help myself
My own damn emotions overflow like hell

Is this really the last time
I get to talk to you
I still care for you

Is this really the last time
I get to talk to you
I still care for you

Is this really the last time
I get to talk to you
I still care for you

I care
Every time we share
Hurtful words at night
I still care about you
