

# don't waste your time

slchld

Who I belong to? I won't say anything  
Love like I wanted without you judgin' me  
Can't we just go about our ways?  
I don't want to make any more memories with you

So don't waste your time  
I'll be alright  
Save all your worries for your next guy  
We're old enough to know  
That nothing lasts if you hurt someone too much

Maybe it was a one-time thing  
That you know baby  
Sometimes that's all it takes

Girl, I tried my best to be with you  
It's hard to put the blame on you only  
I've done plenty of bad things  
But you know I've been, I've been  
Holding back these tears  
I've done all I could  
Now I can't turn back  
I got somebody waiting for me  
Waiting for me, ohh

You best be on your way out  
Girl, you stayed for a while  
And I listened to your stories but

Girl, I tried my best to be with you  
It's hard to put the blame on you only  
I've done plenty of bad things
