

## EILEEN'S INTERLUDE

slchld

Often in my dreams  
I'm standing pretty close to you Eileen  
But in reality we're worlds apart  
Between us there's a sea

She said  
Stay easy on the drugs  
The only pill you need is love

I kept  
Dreaming of leaning next to you  
And resting underneath the stars

Woke up feeling hurt  
I've been out of touch with phone calls and the Earth

Over all the years  
You masked the pain with liquor out of fears

Often in my dreams  
I'm standing pretty close to you Eileen  
But in reality we're worlds apart  
Between us there's a sea

She said  
Stay easy on the drugs  
The only pill you need is love

I kept  
Dreaming of leaning next to you  
And resting underneath the stars

Do you still believe in love  
Do you still believe in love
