

I would

slchld

(I would)
Love you in my last
I would
Whatever's in the way
I would
Although I am afraid
I would
Guide you to the light
I would
(Tell me, tell them babe 'cause I would)
(Love you in your darkest, I would)

You know that I would
(Know that I would)
I would
Love you
No matter what state we're in
I'd still be your man
Forget what they told you
I will wait for you right here

You know that I would
Love you in my last
I would
Whatever's in the way
I would
Although I am afraid
I would

Right at this moment
You are all I see
(Face to face)
(My hands on your knees)
I pray you believe

You know that I would
Love you in my last
I would
Whatever's in the way
I would
Although I am afraid
I would
(Yeah, I would)
