You've been all over me  
I thought of other ways  
Summer's in my mind  
When you're askin' in my fight  
I took a leap of faith  
On this road with you, I tried  
We'll work it out  
When you put me up to lose  
I know you been so lonely  
But you've gone too far, I'm hurtin'  
Haven't heard from you, I'm leavin'  
Wi-ith you, I've got stronger since then  
Although I'm up to no good  
At least I'm honest

When you put me up to lose  
I know you been so lonely  
But you've gone too far, I'm hurtin'  
When you put me up to lose  
I know you been so lonely  
But you've gone too far, I'm hurtin'

Grab me by the chain, nah-nah  
You don't want me to leave  
Since when do we have bad blood? (Blood)  
You got me sinking down away-ay, yeah  
It's been a minute, girl, just wait  
You got me going like, "Damn, we been crazy  
Crazy in love"  
Why did we leave it like this?  
Girl, you spilled your blood on me  
But that don't mean the end  
Those scars will remain  
As memories or

When you put me up to lose  
I know you been so lonely  
But you've gone too far, I'm hurtin'  
When you put me up to lose  
I know you been so lonely  
But you've gone too far, I'm hurtin'
