Having issues with myself I let it  
Get the best of me I know already  
If I got too many  
Problems to be solved  
Might just get a headache because I'm ready to be sleepin' all day  
But once I lay in bed  
I'd be lying if I said  
I ain't worried  
What about your problems too  
I'm trying to make it work  
But the pieces won't fit right

Way I see it  
There's no ending  
I won't be here  
Till the credits

Way I see it  
She's an expert  
I won't be here  
New beginning

Way I see it  
There's no ending  
I won't be here  
Till the credits

Way I see it  
She's an expert  
I won't be here  
New beginning

Yeah

Jump into the pool of stress  
There's nothing left to fear but death  
I thought about a day without you  
But just in case

Tell me how you felt like when  
When you just woke up  
And noticed that you're all alone  
Don't try to fake it  
Because I know you felt at least somethin'  
And you told me you won't ever lie  
Well well  
I lied a couple times too  
Make that a hundred maybe hundred times two  
I don't want to talk about it anymore  
Oh wait  
I brought it up  
I'm the one to make a fuss

I'm sorry baby  
I'm not strong enough to  
Take care of myself  
My life and my health

I'm sorry baby  
I'm not strong enough to  
Take care of myself  
My life and my health

Way I see it  
There's no ending  
I won't be here  
Till the credits

Way I see it  
She's an expert  
I won't be here  
New beginning
