

All Day Ticket

Sleaford Mods

The seafront changes slowly if you blink throughout the day
The routes don't change that often every 2 years, say
If you get past it the job's not so bad
It just takes it out of you, so slowly out of you

The ages back the wheels and shifts can't really play
The rescue song inside your head that crashes in your brain
But if you get past it the job's not so bad
It just takes it out of you, so slowly out of you

So many faces pass behind the class and cars and days
The drinking helps on Tuesdays if you leave it for 3 days
So if you get past it the job's not so bad
It just takes it out of you, so slowly out of you

There's a signal out there for you
It's got your name on it in blue
It's got your name all over, yea
Because you fell back into it

The houses near the pier and the white walls that they play
The rounded roads that touch the wind to make it go away
But don't be so mad, you'll eventually get past
It won't take it out of you, so slowly out of you

The episode played out it didn't get no after go
The series had some fillers one or two, you know we know
But don't be so mad, you'll eventually get past
It won't take it out of you, so slowly out of you

There's a signal out there for you
It's got your name on it in blue
It's got your name all over, yea
Because you fell back into it
