

Key markets  
Key markets  
Key markets

This is the four second warning and its gunna scab all your lot  
It's gunna drag you down to key markets  
And shoot you all in the car park, key markets where's the key?  
It's calling me courtesy counter and bleak me  
Green coat and isles of nothing I got the sack  
I thought "fuck, me didn't do nothing obviously"  
Fire engine stations bluffing

Key markets  
Key markets

All these freaks on me  
Have a nice little dream  
In people and what sits  
In the area of bits

All these freaks on me  
Have a nice little dream  
In people and what sits  
In the area of zits

You know there's always better bollocks and they ain't me  
You always know better bollocks on a busy street  
I used to rate 'em and now I don't  
I'm just a little moaning arse fart blowing smoke  
I'm just a little moaning arse fart blowing smoke  
Blowing smoke, oh dear, well excuse me  
Blow it up relentlessly  
Curbed hole road is endlessly

All these freaks on me  
Have a nice little dream  
In people and what sits  
In the area of bits

All these freaks on me  
Have a nice little dream  
In people and what sits  
In the area of zits
