

## Big Dream

Sleaford Mods

A big dream, a big dream  
I seen a big dream dreamt it lot  
I dreamt that I laughed and I clocked off  
I let the door slide I glided out  
I got a Boss belt and a bag of deece snout  
It's all about the treasure-sinking ship  
Spanish doubloons I'm gonna splash out quick  
The seas are high  
You lot are fucking dry  
Swash buckle tang loop bang it

A big dream, a big dream

Make it dap, make it high noon  
3 blokes walk into a club mate  
And so what? Eat it slop  
The beer tray has it on a non stop  
The big doors smell of bleach  
The crap that you find when you  
Clean up round the seats  
And we laughed oh how we laughed  
The liver of the dead is gonna take us all out

A big dream, a big dream, a big dream, a big dream, a big dream  
, a big dream
