

Britain Thirst

Sleaford Mods

Take it, take it, take it
They're gonna take it off me
Take it, take it
They're gonna take it off me
Take it, take it

I prepare myself
For property theft
They'll ninja me arm
Nick my brand new car
Batter my dog
Scar my soul
These people, they don't care
They can't get dole

They're gonna tie my hands
Tell me not to scream
They're gonna take it off me
I can't move
If I do, he's gonna shoot
They're gonna take it off me
They're gonna tie my hands
Tell me not to scream
They're gonna take it off me
I can't move
If I do, he's gonna shoot
They're gonna take it off me

Off me
They're gonna take it off me

Chip paper glass
Those angry mouths
In streets long gone
Where they put one on ya
(One on?)
Batter my dog
Scar my soul
These people, they don't care
They can't get dole

They're gonna tie my hands
Tell me not to scream
They're gonna take it off me
I can't move
If I do, he's gonna shoot
They're gonna take it off me
They're gonna tie my hands
Tell me not to scream
They're gonna take it off me
I can't move
If I do, he's gonna shoot
They're gonna take it off me

Take it off me
They're gonna take it off me
They're gonna take it off me

My French doors went
I saw the window wink at me
As it bounced off the wall
From the light in the ceiling
I get the feeling
I felt the moves and went
I screamed at his face
And I cut him with a pen
Whatever
Then I got clever

They're gonna tie my hands
Tell me not to scream
They're gonna take it off me
I can't move
If I do, he's gonna shoot
They're gonna take it off me
They're gonna tie my hands
Tell me not to scream
They're gonna take it off me
I can't move
If I do, he's gonna shoot
They're gonna take it off me

Off me
Off me

And the roads all lead to the bin
No better in your end
It's a growth and it's diggin' in
No better in my end
And the roads all lead to the bin
No better in your end
It's a growth and it's diggin' in
No better in my end

No better in your end
No better in my end
No better in your end
No better in
