Dull  
Dull

It's all dull  
Shadowed sentence  
As you look out  
Curbs, road paint, murder mile  
You better look out  
Across the routines  
In town then out  
The flow of day shifts give way to nights  
Time and half  
Four days on, seven off  
Work like fuck, top off  
No good news is all it is  
Few perks, try and live your life  
Fucking go berserk  
We are the cheap flights  
Looking at the Ferrari  
On show in duty-free  
Choice of two hundred cars tickets  
From three pound fifty  
Bag of fags, fry ups  
Falling out our rumbling cracks  
But not me  
I'm sick of the fat soaked farm eggs kid, mate, gluten free  
Try scrolling down a website, the NME, without laughing  
I'll give you ten quid if you can keep a straight face  
Honestly, just fucking try it, mate

Dull  
Dull  
Dull  
Dull

Jump sticks roll around my hand  
Big screen airport stand  
Four flights, two-hour journey  
Feet feel cold mate  
Big fat Bernies  
Bernie Winters, roll neck splinters  
Schnorbitz on the pull  
He's got his chappy out  
Rescue dogs ain't fucking dull  
Like you, like me  
Let's do star jumps with white teeth  
Moosey, no fee

We don't sell our souls anymore, give it away for free  
"Please Please Me"  
Dead bingo  
Brexit loves that fucking Ringo  
Safe bet, all the oldies vote for death  
Strap down, watch them, and strike fast  
Why not? They wanna kill people who ain't got a lot? [?]  
No switch theme, we should take the house and fuck 'em  
Why not? They wanna kill people who ain't got a lot [?]

Dull  
Dull  
Dull  
Dull

Timeline's in the bin  
All this fucking expert knowledge  
Slating the big guns  
Getting em locked up like Porridge  
On your keyboard, Evil Knievel  
How to win pens and scribble on people  
Essence of life, little worms and light up when you look at the sky  
Constellation, masturbation  
But that wasn't said by me  
I don't fumble in my jungle  
I'm wanking free, born free  
Free's not right, that's not good  
Spend your life on fucking Pornhub  
Black and orange, what'd you say?  
Sexy this and what a farce  
The reality of pinching too much arse
