

Firewall

Sleaford Mods

Now it's over
The strike upon the hand has gone
What you open
Isn't necessarily what it says on the box
So it's over
The bricks are telling cold on me
I said I'm closer
To the morning sunshine down on me

I said it's over
It's not something you need to do
You're getting older
You're getting slower to the point where you're no use
So it's over
The bricks are telling cold on me
I said I'm closer
To the morning sunshine down on me

You don't know you're crying at all
Because of your firewall
Trapped in the mind of something else you've become
You don't know you're crying at all
Because of your firewall
Trapped in the mind of something else you've become

It's just the way it's been
When you've gone missing in the action
It's just the way it's been
When you've gone missing in the action

You don't know you're crying at all
Because of your firewall

Now it's over
