Git Some Balls

Sleaford Mods

Write down and then you just wipe
Git some balls, I'll swipe up
Get sniper and Snyder
You got no backbone mate
I play to game for my side
Tory boy, big blue tie
George Oswald suicide
And who said

Cannibals
The cannibals down on your lot
And I can't take you no more
Write down and then you just swipe
You snipe, it's sly day
Get sly day

Down a hallway, up for the call
We tall boy, you stall
That foe took off to get higher
Worry mate, I ain't got a lighter
Get off your head, fall back
Small world, bad times
Smoke a lot, ten pound job
You're a trooper

Git some balls
Git some balls
Git some balls
Git some balls

Write down and then you just wipe
Git some balls, I'll swipe up
Get sniper and Snyder
You got no backbone mate
I play to game for my side
Tory boy, big blue tie
George Oswald suicide
And who said

Cannibals
The cannibals down on your lot
And I can't take you no more
Write down and then you just swipe
You snipe, it's sly day
Get sly day
