

PPO Kissin' Behinds

Sleaford Mods

Plenty people outside
Tellin' you that you don't need it
Plenty people outside
Tellin' you that you don't need it
But you will, and you do, and you always will
Plenty people outside
Tellin' you that you don't need it

I get the feelin' sometimes
I'd better watch how I speak my mind
There's plenty people outside... kissing behinds
You laugh at me, I don't care
I got all my greasy hair
I got a clueless idea
Killing me man

Plenty people outside
Tellin' you that you don't need it
Plenty people outside
Tellin' you that you don't need it
But you will, and you do, and you always will
Plenty people outside
Tellin' you that you don't need it

You fell out with the timing right
We got lost in the powdered night
We played dead cause we wanted to
Now the life don't seem to notice you

Now the life don't seem to notice you
Now the life don't seem to notice you
I get the feelin' sometimes
I'd better watch how I speak my mind
There's plenty people outside... kissing behinds

Plenty people outside
Tellin' you that you don't need it
Plenty people outside
Tellin' you that you don't need it
But you will, and you do, and you always will
Plenty people outside
Tellin' you that you don't need it
