

Bad Dance

Sleater-Kinney

And if the world is ending now
Then let's dance the bad dance
We've been rehearsing our whole lives

Well don't just stand there
Why don't you follow me around?
My truth is slack and loose
My morals are unsound
But I'm amusing
I'm amazing, I'm impure
Dip your toes into the chaos
It'll feel just like a cure

And if the world is ending now
Then let's dance the bad dance
We've been rehearsing our whole lives
And if we're all going down in flames
Then let's dance the bad dance
We've been rehearsing our whole lives

Come over here and show me
That you crave a little more
Let me defang you
And defile you on the floor
Well I'm indulgent
I'm impulsive, I'm profane
Doesn't matter how long you last
'Cause I have rigged the game

And if the world is ending now
Then let's dance the bad dance
We've been rehearsing our whole lives
And if we're all going down in flames
Then let's dance the bad dance
We've been rehearsing our whole lives

Be the weapon, be the love
Be the weapon, be the love
Be the weapon, be the love
Be the weapon, be the love

And if the world is ending now
Then let's dance the bad dance
We've been rehearsing our whole lives
And if we're all going down in flames
Then let's scream the bloody scream
We've been rehearsing our whole lives
