

## 02

Sleater-Kinney

I wanna run away  
I wanna get away  
But I will never get up  
Oh, won't you help me up?

I rely on oxygen  
I depend on bitter snow  
I rely on your oxygen  
I depend on bitter cold

I want to know  
Why it hurts to stay?  
And hurts to go away  
Will I be okay?

Crawled out of the mud  
This filth you called your love  
Slept for countless days  
But I will be okay

I wanna run away  
I wanna get away  
But I will never get up  
Oh, won't you help me up?

I rely on oxygen  
I depend on bitter snow  
I rely on your oxygen  
I depend on bitter cold

I didn't know I could feel this low  
On oxygen  
So afraid that I'll watch you go  
On bitter snow  
I didn't know I could feel this low  
On your oxygen  
So afraid that I'll watch you go  
On your bitter cold

Take my strength out  
But I'm not down  
Write this reverse  
I'm not down

I wanna run away  
I wanna get away  
But I will never get up  
Oh, won't you help me up?

Take my strength out  
I wanna run away  
But I'm not down  
Take my strength out  
I wanna get away  
But I'm not down
