

Distant

Sleep On It

This is the last time
This is the follow through I'll never find
You're better off believing that I'm gone
Feel the tension
I'm a funeral procession
Driving circles around memories I've lost

Don't wait up
When the morning comes I promise I'll be gone

I've been down
I've been hit and knocked around
Found the worst side of this town
Not the person I want to be
(You said you'd stay forever)
Scream it loud
Not giving in or giving up right now
I need to find a way to cope somehow
Not the person I want to be
I can't see what's in front of me

You feel distant
I only want it when I need it
Took the blue line just to see you one more time
I'm the concrete
That you feel beneath your feet
Cracked and broken. The weather took its toll on me

How long until you see

I've been down
I've been hit and knocked around
Found the worst side of this town
Not the person I want to be
(You said you'd stay forever)
Scream it loud
Not giving in or giving up right now
I need to find a way to cope somehow
Not the person I want to be
I can't see what's in front of me

Maybe it's all true
I'll never find somebody like you
Or maybe I should really be alone

Maybe it's all true
I never wanted someone like you
It's finally time you make your way back home

Make your way back home

I've been down
I've been hit and knocked around
Found the worst side of this town
