

# Out Of Touch

Sleep On It

Let's go!

Caution out the window, calibrator confidence  
Letting go of all your bullshit insurances  
I'm feeling out of touch, maybe I feel too much  
Maybe, I don't need what you need, you'll only hatch a  
Alive in cause to ability

I know you're frustrated  
With common thoughts of feeling alone  
And it's all in my head  
All the things that we can't control

You know

Everything about me, exaggerate the in between  
Only tried what you see, exaggerate the air between  
I'm feeling out of touch, maybe I feel too much  
Maybe, I don't need what you need, you'll only hatch a  
A new sense of security

I know you're frustrated  
With common thoughts of feeling alone  
And it's all in my head  
All the things that we can't control

Judging, waiting  
Feeling like I'm underneath  
All the, way up  
Everything, I shouldn't breathe  
Can you, hear me?  
Take this time where we have been  
Can you, hear me?  
I need to know I'm safe again
