# Solstice

**Sleep On It**

Let's take this hurt
Make it fuel, make it burn
Light the way back

I lost my head
Make me whole, whole again
And I'll find my way back

I need a change
You changed and nothing feels the same
(Nothing feels the same)

Oh, you know I've been letting go
Blame it on the weather
Feeling better when it rains

Oh, you know I've been letting go
Blame it on the weather when it rains

Tell me wait
I'll just accumulate
Dust and seasons

I felt you slip
Held too tight and lost my grip
Don't have a reason

I can't stand the shame
New stains that I can't wash away
(I can't wash away)

Oh, you know, I can't let it go
Blame it on the weather
Feeling better when it rains
Oh, you know, I can't let it go
Blame it on the weather when it rains
