

Talk Slow

Sleep On It

Head North on a silent drive
You're blind to the things I'm seeing
I miss you and your Summer eyes
I'll talk slow, to keep you from leaving

At den's depths, feel you in my veins
Not more, I shut out the feeling
Move slow in the morning haze
If you leave, cause I'm still sleeping

Laying in gardens hand and hand
Feel the sunshine on my face
Another bad name and the other wrong word misplaced
And gone to waste

You take, take, take, it all away
You left, and put me in my place
Now I don't think I'll feel the same
(But I don't feel the same way)
I'll make, make, make, it up to you
Opinion fried that you want me to
For what it's worth, I'd pray that you do too

It's been a long month inside my head
So many thoughts while I've been drinking
Great lakes will fall again
And we'll find what we've been missing

Laying in gardens hand and hand
Feel the sunshine on my face
Another bad name and the other wrong word misplaced
And gone to waste

You take, take, take, it all away
You left, and put me in my place
Now I don't think I'll feel the same
(But I don't feel the same way)
I'll make, make, make, it up to you
Opinion fried that you want me to
For what it's worth, I'd pray that you do too

Say what you want to
I don't believe you
I can't believe you now

And you said, you need to get some rest
(But I'm not tired yet)
And it's not quite right in the head
Laying down to fall asleep

Head North on a silent drive
You're blind to the things I'm seeing
