Sleep Theory

Do you remember how it felt each time you looked at me?
The way you hated what you see
(Or maybe you just hated everything)
I never told you it's a feeling I remember too
It's how I feel when I see you

And we just

(Fall out)
Let me go, I can't take this
(Break down)
Let me leave you in pieces
(Right now)
Took me too long to see this
'Cause who I am got buried beneath it

You tried to sneak around and play my insecurities
You always knew what made me weak
(I was scared of saying anything)
But now it's you that second guesses everything you knew
And I'm the one who's playing you, oh

And then we

(Fall out)
Let me go, I can't take this
(Break down)
Let me leave you in pieces
(Right now)
Took me too long to see this
'Cause who I am got buried beneath it

(Keep pushing)
Until I break
(I'll crawl out)
If it's what it takes
(You'll shatter)
Under the weight
(My last mistake)

I never told you it's a feeling I remember too
And I'm the one who's playing you

(Fall out)
Let me go, I can't take this
(Break down)
Let me leave you in pieces
(Right now)
Took me too long to see this
'Cause who I am got buried beneath it

(Go and keep your distance)
Let me go, I can't take this
(As you fall to pieces)
Let me leave you in pieces
(In your toxic madness)
Took me too long to see this

'Cause who I am got buried beneath it
