

Well I know what you want from me  
You want someone to be  
Your reflection, your bitter deception  
Setting you free  
So you take what you want and leave

Who made you like this?  
Who encrypted your dark gospel in body language?  
Synapses snap back in blissful anguish  
Tell me you met me in past lives, past life  
Past what might be eating me from the inside, darling  
Half algorithm, half deity  
Glitches in the code or gaps in a strange dream  
Tell me you guessed my future and it mapped onto your fantasy  
Turn me into your mannequin and I'll turn you into my puppet queen

Won't you come and dance in the dark with me?  
Show me what you are, I am desperate to know  
Nobody better than the perfect enemy  
Digital demons make the night feel heavenly

Make it real  
'Cause anything's better than the way I feel right now  
I can offer you a black-lit paradise  
Diamonds in the trees, pentagrams in the night sky

Lipstick, chemtrails, red flags, pink nails  
With one eye on the door, other eye on a rail  
Other, other eye following a scarlet trail  
And the last few drops from the Holy Grail  
Now rose-gold chains, ripped lace, cut glass  
Blood stains on the collar means just don't ask  
Be the first to the feast  
Let's choke on the past  
And take to the broken skies at last

Diamonds in the trees, pentagrams in the night sky  
Diamonds in the trees, pentagrams in the night sky  
Diamonds in the trees, pentagrams in the night sky  
Diamonds in the trees, pentagrams in the night sky  
Diamonds in the trees, pentagrams in the night sky  
Diamonds in the trees, pentagrams in the night sky  
Diamonds in the trees, pentagrams in the night sky  
Diamonds in the trees, pentagrams in the night sky

You're gonna watch me ascend

And I know what you want from me  
You want the same as me  
My redemption, eternal ascension  
Setting me free  
So I'll take what I want then leave

You make me wish I could disappear  
You make me wish I could disappear
