

Descending

Sleep Token

Just take it all
For nothing again
Create, release
She just don't feel the same
I asked and you answered
But you eat your words in frame
At last, discover
You can't recall my name

And I won't let you fall away
I've been left no choice
Don't you see that?

You come crawling back to me
But I'm already on the ground
And we all know that talk is cheap
So come on and save me now
And you wonder what I believe
But you don't wanna be around
So what would you do for me?
Yeah, what would you do for me?

I won't repeat what I have said before
My love withers and chokes in perfect awe

And I won't let you fall away
I've been left no choice
Don't you see that?

You come crawling back to me
But I'm already on the ground
And we all know that talk is cheap
So come on and save me now
And you wonder what I believe
But you don't wanna be around
So what would you do for me?
Yeah, what would you do for me?

You come crawling back to me
But I'm already on the ground
And we all know that talk is cheap
So come on and save me now
And you wonder what I believe
But you don't wanna be around
So what would you do for me?
Yeah, what would you do for me?
