

# Emergency

Sleep Token

Well, you were laid in verse  
Living on a promised word  
Well, I am the rose you relinquished again  
You and I are down head-first  
In another world, I heard  
But I have a feeling we're close to the end, so

Come on, come on  
Out from underneath who you were  
Come on, come on now  
You know that it's time to emerge

So go ahead and wrap your arms around me  
Arms around me, arms around me, yeah  
Go ahead and wrap your arms around me  
Arms around me, arms around me, yeah  
Go ahead and wrap your arms around me  
Arms around me, arms around me, yeah  
Go ahead and wrap your arms around me  
Arms around me, arms around me, yeah

Are you carbide on my nano?  
Red glass on my lightbulb  
Dark light on my culture  
Sapphire in my white gold  
Burst out of my chest and  
Hide out in the vents, my  
Blood beats, so alive might  
Bite right through your lens, it's  
Midnight in my mind's eye  
Drowning out the daylight  
Godspeed to my enemies that be  
Asking for that call sign  
You know the behaviour  
Canines of the saviour  
Glory to the legion  
Trauma for the neighbours

So go ahead and wrap your arms around me  
Arms around me, arms around me, yeah  
Go ahead and wrap your arms around me  
Arms around me, arms around me, yeah  
Go ahead and wrap your arms around me  
Arms around me, arms around me, yeah  
Go ahead and wrap your arms around me  
Arms around me, arms around me, yeah

I've got solar flares for your dead gods  
Space dust for your fuel rods  
Dark days for your solstice  
Dancing through the depths of  
Hellfire on the winds that  
Started from within, my  
Blood beats so alive, might  
Tear right through my skin, so  
Tell me what you meant by  
Living past your half-life

In lockstep with the universe  
And you're well-versed in the afterlife  
You know that I'm sanctified  
By what's below  
No matter what you do  
No matter where you go

And you might be the one to take away the pain and let my mind go quiet  
And nothing else is quite the same as how I feel when I'm at your side

Come on, come on  
Out from underneath who you were  
Come on, come on now  
You know that it's time to emerge

Go ahead and wrap your arms around me  
Arms around me, arms around me

You might be the one to take away the pain and let my mind go quiet  
And nothing else is quite the same as how I feel when I'm at your side
