

# Levitate

Sleep Token

I can lift you up  
Your body is mostly blood  
Like water, a perfect flood engulfing me again, oh  
I can tell you won't remember my cracking bones  
The trauma we can't regrow  
Just as you leave again, no

Will you levitate  
Up where the angels inhabit  
Will you levitate  
Where I won't reach you

And we imitate a story of perfect days  
A ballad we fabricate as you forget your words again, oh  
And is that all you need to merely pretend to be falling in love with me  
Forgetting the agony again, oh

Will you levitate  
Up where the angels inhabit  
Will you levitate  
Where I won't reach you  
Will you levitate  
Up where my love doesn't matter  
Will you levitate  
Where I won't reach you  
Will you levitate  
Will you levitate  
Will you levitate
