

And you play a twisted little game
I know in a way
You need to complicate

Believe that though we never eat
We still know how to feed
We still know how to bleed, oh

Sugar, I've developed a taste for you now
Sugar, I've developed a taste for you now
Sugar, I've developed a taste for you now
Sugar, I've developed a taste for you now

My arms, keep you in the room
Barely let you move
Show me what to do

Tonight, we're second guessed again
Let me wrap the chains
Addicted to the pain

Sugar, I've developed a taste for you now
Sugar, I've developed a taste for you now
Sugar, I've developed a taste for you now
Sugar, I've developed a taste for you now

Do you wanna see how far it goes?
Do you wanna test me now, my love?
You must be crazy if you think I will give in so easily

Things we buried low
Coming to the surface now, my love
You must be crazy if you think that I will give up the game

Sugar, I've got a taste for you now
Sugar, I've got a taste for you now
Sugar, I've got a taste for you now
Sugar, I've got a taste for you now

Sugar, I've developed a taste for you now
Sugar, I've developed a taste for you now
Sugar, I've developed a taste for you now
Sugar, I've developed a taste for you now
