

Big Black Sun

Sleeper

Sorry now for all the things I didn't do
Sorry for the misery I put you through
Oh, but I was mad to choose
With all I had to lose

There goes a big black sun
A big black sun

Sorry for those rotten days I brought around
And sorry for the hundred ways I put you down
Sorry for the imposition
And all that superstition

There goes a big black sun
A big black sun

Told you all along
I'm just as weak as I am strong
Show me how to keep
The sun alive when you are gone

There goes a big black sun
A big black sun
There goes a big black sun
A big black sun

Sorry now for all the things I didn't do
Sorry for the misery I put you through
Oh, but I was mad to choose
With all I had to lose

There goes a big black sun
A big black sun

Why have you and me
Been so wrong?
Why have you and me
Been so wrong?
There goes a big black sun
A big black sun
There goes a big black sun
A big black sun
There goes a big black sun
A big black sun
There goes a big black sun
A big black sun
