

Fallback

Sleeperstar

Said, said, said
Said "I didn't do it."
How can you say
"There's no truth to it."
yeah

Didn't didn't didn't
Will not admit it
Not enough for you?
Well, sorry again.

Fall back
Open up your arms
and let me in
I'm going to your side.
Fall back
Open up your arms
and let me in.
I'm going to your side.

You don't what you're saying
Your argument's betraying
Like spies with lies
and misdirection.
We've been standing here for hours
Won't you stand down?
Stand down.

Fall back
Open up your arms
and let me in
I'm going to your side.
Fall back
Open up your arms
and let me in.
(fallback)
I'm going to your side.
(fall, oh)

All of this I know
I never found a way
to let go
so fall back
fall back

We've been standing here for hours
and our words are losing power
and I don't think
you believe me.
If this is how the world is ending
leave me something worth defending
and stay low, stay low
stay low low, oh oh.

All of this I know
I never found a way
to let go.

So fall back
fall back

Fall back
Open up your arms
and let me in
I'm going to your side.
Fall back
Open up your arms
and let me in.
I'm going to your side.

Fall back
Fall back
Fall back
Fall back
