

# Only Human

Sleeperstar

So we were born apart  
Never got the chance to start  
The universe is funny  
But no one here is laughing  
So tell me if you have the time  
'Cause everyone has lost their minds  
We've walked this block a hundred times  
Just stop

CHORUS:

(Tell me the truth)  
Do you wanna believe again  
Open your arms, honey, let me in  
We're only human  
We're only human  
And our chests are burning up  
Hearts wanna speak through a mouth sewn shut but  
We're only human  
We're only human

When did you stop asking why  
The cells inside your head won't fire  
Another day you've wasted  
Too afraid to face it  
But join the ranks of walking blind  
Hand in hand without a guide  
The safeties of the chambers live  
Just stop

CHORUS

Oh how bearing the soul  
Out loud out loud  
And all the words that you wrote  
Say loud say loud

CHORUS
