

Sparks

Sleeperstar

I heard you're up in town again
The phone it starts to ring again
Seven times in seven weeks
A boy starts to dream a lovers dream

You got me wrapped around your finger
Are we making all the same mistakes?
And when you know that I won't leave you, you will go

Yeah

This could be our last regret
If I let you go
If I let you go

Then sparks fly for one night
Wrapped around your finger
Tangled in the sting within

And then sparks fly, for one night
Wrapped around your finger

The way we lost our innocence
You say it was an accident
Leavin' town, leaving me
Is this the way it has to be?

You got me wrapped around your finger
Oh and tangled in the sting we're in
And when you know that I won't leave you, you will go

This could be our last regret
If I let you go

If I let you go

Then sparks fly for one night
Wrapped around your finger
Tangled in the sting within

And then sparks fly, for one night
Wrapped around your finger

It was the right time
It was the right time
To hold me, oh

It was the right time
It was the right time
To hold me, oh

It was the right time
It was the right time
To hold me, oh

And all I saw is the

Sparks fly, for one night
Wrapped around your finger
Tangled in the sting within

Then sparks fly, for one night
Wrapped around your finger

Then sparks fly, for one night
Got me wrapped around, wrapped around yeah

Then sparks fly, for one night
Got me wrapped around, wrapped around...
