

# Another Nightmare

## Sleeping with Sirens

I was thinking 'bout you when I was falling asleep  
(When I was falling asleep, when I was falling asleep)  
I was thinking 'bout how you always were there, there for me  
(There for me, there for me)  
Nobody's perfect, there's no excuse  
I've been such a fucking nightmare to you  
But I promise if you let me in (Let me in, let me in)  
I will never ever hurt you again

Keep holding on  
(On on, on on)  
Keep holding on  
(On on, on on)  
I promise if you let me in  
I will never ever hurt you again  
Keep holding on  
God I'm such a fucking nightmare

I was looking for you last night in my dreams  
(Last night in my dream, last night in my dreams)  
I was running to you to save me from these terrible things  
(These terrible things, these terrible things)  
Nobody's perfect, it's just the truth  
And I've been such a fucking nightmare to you  
But I promise if you let me in (Promise if you let me in)  
I swear I'll never ever lose you again

Keep holding on  
(On on, on on)  
Keep holding on  
(On on, on on)  
I promise if you let me in  
I will never ever lose you again  
Keep holding on  
God I'm such a fucking nightmare

(Nightmare!)

Keep holding on  
(On on, on on)  
Keep holding on  
(On on, on on)  
Nobody's perfect, it's just the truth  
And I've been such a fucking nightmare to you  
Holding on  
(On, on)  
Such a fucking nightmare
