

All we want, what we want is  
All we want is gold  
Sun sets on Long Island  
Pull the windows down in the van  
Lost my map on the Jersey turnpike  
But it's okay we ain't looking back

All we ever want is gold  
One way on this winding road

We made our mistakes  
It's not too late  
We had to learn the hard way  
Bridges will burn  
Now it's our turn  
We had to learn the hard way  
Because all we ever want is gold  
We made our mistakes  
It's not too late  
We had to learn the hard way

It's two in the morning  
Can't seem to find the words for a song  
I remember my dreams and how fun they seem  
I can't believe how far we have come  
Cause all we ever want is gold  
So is sixty miles on this open road

We made our mistakes  
It's not too late  
We had to learn the hard way  
Bridges will burn  
Now it's our turn  
We had to learn the hard way  
Because all we ever want is gold  
We made our mistakes  
It's not too late  
We had to learn the hard way

Don't lose your faith in me (Don't ever look like, don't ever look like)  
It's never what it seems

You make your mistakes  
But it's never too late  
We had to learn the hard way  
You made your mistakes  
It's not too late  
You had to learn the hard way  
Bridges will burn  
Now it's your turn  
You had to learn the hard way  
Cause all we ever want is gold  
All we ever want is gold (We had to learn the hard way)  
All we want, what we want is  
All we want is gold  
All we want, what we want is  
All we want is gold
