

Nostalgia

Sleepy Hallow

Bae, I was hoping you'd stay
Fuck your ex nigga, he play
What's your finsta? I'm tryna see your page
On your main you be playing it safe
And I love when you wax your lace, uh
I leave you shocked like a tase
I got feelings for you, I'm amazed
Every hero don't come with a cape
I'm just coming so you can get safe (I hope you know)
And I'm sorry that day I was late
But I'm happy that you kept the faith
Lapping niggas, they think it's a race
It's my birthday, girl, give me your cake
I ain't never jump inside a lake
Whole time, I was thinking you real (was thinking you real)
I would hate to find out you was fake, ay

I hope you know you're so naive too
You got a hold of me and I can't shake it
You make this toxic game so romantic
Till you twist the knife while I'm bleeding

Bae, I was hoping you'd stay, uh
Told me she hope and she pray
It get sunny, I'm hoping it rain
That's just how I get ready for pain
Whole time, I was keeping it p
Niggas wasn't respecting the game
Whole time, I was chasing my dreams
Never thought it would come with the fame
My heart like Novocaine, numb to the pain, can't feel it
(I hope you know you're so naive too)
Don't get too drunk, say sober things
I hope the right one hear it
Her love a sample, hope she clear it
She said I never needed clearance
I hate the fact that you know other people
I should be the only one that hit it
And you the only one that get it

Call it what you want, girl
Take it, take it off, girl
And when the night is over, you can tell 'em all it's over
Baby, when the night is over

I hope you know you're so naive too
You got a hold me and I can't shake it
You make this toxic game so romantic
Till you twist the knife while I'm bleeding

Call it what you want, girl
Take it, take it off, girl
And when the night is over, you can tell 'em all it's over
Baby, when the night is over, when the night is
