

Switch Up

Sleepy Hallow

Great John on the beat, by the way

When you got the bag, they look at you different
They wanna see how you livin'
If you gettin' it fast, is you really with it?
You ain't been on a mission, I'd never forget but you was forgiven
You ain't gotta go switchin' but that's on you
Yeah, that's on you if you switch up

Show no pity for your clique, whoever with me, keep a stick
Whoever with me, we gonna run this city, we ain't never scared to make a lick
Look, double up 'til you got enough, now your dirty money gettin' thick
I know you niggas think you slick, I know you bitches think you slick
Wasn't with me, wasn't fucking with me, now you tryna get a share of chips
Whole lotta shooters with me show respect
I know they gon' do it for the set, I know they gon' do it for a check
Ain't no water park when you gettin' wet
I'm sorry gang, you made a mess
We ain't playin', baby, go and get a vest

When you got the bag, they look at you different
They wanna see how you livin'
If you gettin' it fast, is you really with it?
You ain't been on a mission, I'd never forget but you was forgiven
You ain't gotta go switchin' but that's on you
Yeah, that's on you if you switch up
That's on you, yeah, that's on you if you switch up
That's on you, yeah, that's on you if you switch up
That's on you, yeah, that's on you if you switch up
That's on you, yeah, that's on you if you switch up

You was supposed to be with gang, I ain't understand how you wanna switch
Now I got you on a list, now I think you really did it
That 40 Glock be my bitch and she just love givin' kisses
We was outside every day, you was inside on the game, tryna play
I was tryna count up some K's, stood on that block even when it would rain
And yeah, we done been through some pain but T2MB that shit just ain't a name
Free the gang, if you fuck with us, you will remain
I've been tryna relax and they still tryin' to hate but that's just a part of the game
Free the gang, if you fuck with us, you will remain
I've been tryna relax and they still tryin' to hate but that's just a part of the game

And that's on you

That's on you, yeah, that's on you if you switch up
That's on you, yeah, that's on you if you switch up
That's on you, yeah, that's on you if you switch up
That's on you, yeah, that's on you if you switch up
